

# Local Activator SEO

Information and signup for new clients.

**Local Activator SEO** is a marketing package from **PracticePulse**. It gives your business a kickstart with local search and online visibility.

## INTRODUCTION

As a local business, you have different marketing needs to many other types of businesses. Think about it for a minute: Unless you are a highly recognised specialist, your client-base probably works or lives within a few kilometres/miles from your clinic.

Local Search Optimisation is a niche branch of Search Engine Optimisation (SEO). As a local business, your major focus should be **"localised online marketing"**. There are several ways this can be done, and with great results. One of the best ways is to have a consistent, omnipresent and fully prepared social profiles and other points of presence. Search engines largely look at these points of presence to gauge your "local popularity" online. This translates into how well you will **rank in search results with "local intent"**.

Google is popular because it gives best search results to its users. If website owners could cheat Google to get their websites to rank higher than more deserving websites, Google would quickly lose popularity. Hence the exact formula used by Google to determine how high a website will rank for any given search input is a guarded secret.

Marketers have researched and documented how Google works through numerous SEO experiments over the years. Hence there are several well regarded tips and best-practice to help you improve your rankings. However, there is no quick fix.

If your competition's overall online marketing is better than yours, they will get more clients than you. Having a great website gives you a definite head start. But depending on your competition, it may not be enough.

*Our **Local Activator SEO** package aims to correct, populate and streamline your major points of presence in conjunction with your website to boost your online presence.*

## Expectations

**This is not a full-blown SEO campaign.** Due to its nature, it's not possible to guarantee specific results with this type of work. However here are some typical outcomes:

- ✔ Consolidated, consistent, professional and completed social media profiles.
- ✔ Easier management of these profiles in the future.
- ✔ Correctly listed in Google Maps and Apple Maps (where available).
- ✔ Excellent positioning for future campaigns (SEO, paid advertising etc).
- ✔ Common to have one or more keyword combinations rank well in search results.
- ✔ Most citations are accepted within few weeks.  
Could be several weeks before listings are live. We have no control over this.
- ✔ Campaign generally completed within one week, once we have what we need.

## OPTIONAL MONTHLY MONITORING PLAN

Things are always changing online. You need to quickly deal situations such as:

- ⚠️ Your competition starts a new marketing campaign that shifts your placements in search results
- ⚠️ You receive a negative review from a client and don't find out about it
- ⚠️ You have moved offices and need to update various listings online
- ⚠️ Your business hours have changed but clients don't know about it
- ⚠️ An inappropriate post was uploaded to your Facebook page and you don't know how to remove it
- ⚠️ You don't know how your major keywords are performing in search results
- ⚠️ You have lost access to your Google+ Page / Facebook Page because staff who was responsible has quit and you need to change something

**Our monthly monitoring plan can alert you and help you deal with such situations and make sure that your business continues to look good.**
